

PRODUCT INFORMATION SHEET

CarPlan Trade Valet Wheel Cleaner

Description:

CarPlan Trade Valet Wheel Cleaner is a revolutionary formula that removes stubborn, thick film from general traffic pollution and baked on break dust, leaving a clean and polished surface. Suitable for use via an application sprayer to spray on and pressure wash off.

Directions For Use:

To Hand Wash:

Add Trade Valet Wheel Cleaner to our specially designed Application Sprayer, for ease of use. Ensure the wheels are cool before applying. Shake product well before use. Apply product to one wheel at a time. Leave the formula to penetrate the dirt for 1 minute. Agitate foam with wheel brush. Rinse off with plenty of clean water. Rotate wheels 180° and repeat process to avoid missing intricate areas.
